

June Computer Class Newsletter Greater Visions

Hello,

It is amazing that the school year has already come to an end. Once again I would like to thank you for sharing your child with me. It has been such fun getting to know him/her and witnessing the tremendous growth that took place in such a short time. The rate at which young children absorb new information and master skills never fails to amaze me. Every child in my classes this year has brought their own special qualities to our class, creating a wonderful mesh of supportive and dynamic learning.

I wish the best to those children moving on to another school next year. They will truly be missed. Thank you to those who have already registered for classes in the fall, I am looking forward to working with your children again. I hope that everyone found the program to be a positive experience and that others will still join us in computer class again in the fall. Once more, thank you and enjoy your summer.

Thank you,

Barbara O'Connell (aka: Miss Barbie)
